## EDUCATION

- Heritage Institute of Technology** Kolkata, India  
*Bachelor of Technology - Computer Science and Engineering CGPA: 9.6* Oct 2022 - May 2026

## EXPERIENCE

- sync. (YCW24)** San Francisco, California (Remote)  
*Forward Deployed Engineer (FDE)* Mar 2026 – Present  
*Machine Learning Engineer (MLE) Intern* Feb 2025 – Mar 2026  
Sync. is a YC and Google-backed startup located in the Bay Area, pioneering advanced video lip-syncing and editing
  - Engineered services and pipelines that **reduced manual effort by 90%** and made it **3x faster**. Worked on **Computer Vision Models, Pipelines, and Model Optimization** techniques.
  - Delivered **scalable production-grade applications** with **advanced multimedia processing** to support **10+ enterprise clients**.
  - Skills:** Python, Machine Learning, Generative AI, LLMs, Multimedia Processing, Computer Vision.
- Verific Design Automation** Alameda, California (On-site - Kolkata)  
*Software Engineering Intern (for Summer 2025)* Jun 2025 – Aug 2025  
Verific/Electra Design Automation is the leading provider of tools for semiconductor teams and EDA since 1999.
  - Automated test case generation and testing with **advanced Python scripting** and built **custom integrations** with *Invio*, **reducing manual effort by over 95%** and enabling scalable validation workflows.
  - Developed an internal Retrieval-Augmented Generation (RAG) application to streamline query resolution, **improving accuracy and productivity** for engineering teams and customers.
  - Skills:** Python, Machine Learning, Generative AI, LLMs, Vector Embedding
- BlueVector.ai** Denver, Colorado (Remote)  
*Associate Cloud Developer* Nov 2024 – Feb 2025  
BlueVector.ai provides cloud-native and AI-driven solutions for the US government and healthcare sectors.
  - Contributed to **3** enterprise-scale projects, including **Lurie Children’s Hospital, Chicago & The Michigan Department of Corrections**, helping streamline workflows used by over **16,100** staff.
  - Delivered **2** internal projects adopted company-wide, supporting **50+** employees and improving productivity.
  - Participated in full **Agile development lifecycle** of *SnapApp*, (a proprietary low-code platform), turning complex client requirements into robust solutions that **accelerated deployments** and **boosted satisfaction**.
  - Skills:** Python, SQL, Agile, Web Development, Generative AI

## SKILLS

**Languages:** Python, Java, C++, JavaScript, SQL

**AI & Machine Learning:** Agentic AI, Generative AI, PyTorch, Keras/TensorFlow, Computer Vision, NLP, HuggingFace, MCP (Model Context Protocol), Tool Calling

**Cloud & Databases:** AWS, GCP, MongoDB, MySQL, Pinecone, Qdrant, Weaviate

**DevOps & MLOps:** Docker, Kubernetes, CI/CD, Git, AWS Sagemaker, Vertex AI, MLflow, Weights & Biases

**Other Skills:** Agile, Scrum, Cross-Functional Collaboration, Leadership, Problem Solving, Claude Code, Codex, Cursor

## PROJECTS

- DeHazeXpert : Real-Time Video Dehazing Engine (Computer Vision, Edge Computing):** Removes smoke/haze from videos to produce significantly clearer output. First ever solution for videos that runs entirely on-device (with near-zero latency). On powerful CPU systems, it processed 720p video stream at 15 fps with 200 ms latency. With available GPU and CuPY, it can achieve sub-30 ms latency and 150+ fps at 1080ps. **Built with:** Python, OpenCV, Numpy, CuPy
- HireLens: Agentic AI Voice Interviewer (GenAI, Multi-Agent System):** Architected an autonomous voice interviewer using Twilio with real-time barge-in and silence recovery. Integrated resume parsing, adaptive questioning, tamper detection, and automated rubric scoring. **Built with:** Python, Flask, REST APIs, LLMs(Large Language Models), Twilio

## ACHIEVEMENTS AND CERTIFICATIONS

- Winner of HackNITR 5.0** (India’s largest student hackathon)
- Research Publications (x2):** Springer LNCS vol 15505 & IEEE
- Machine Learning & Deep Learning Specializations :** **DeepLearning.AI & Stanford**
- Google Professional Certifications :** **Advanced Data Analytics, Cybersecurity, Project Management**
- Oracle Certifications :** **OCI 2025 Certified Data Science Professional, Generative AI Professional**
- Cloud :** **AWS Cloud Practitioner Essentials, AWS Cloud Technical Essentials, GCP Operations (x8)**
